

The Scottish Parliament
Pàrlamaid na h-Alba

Dear Elaine, Olive and all Scottish mesh survivors.

I wanted to write a short personal note to say thank you for the last inspiring 10 years of campaigning. We have come a long way from that first nervous meeting in the Parliament.

I am so proud of the work we did together :-
- the Petition - the suspension - the mesh fund
- the work with Marion Scott and the work with people across the world.

At the darkest of times you all kept me going, I never lost my faith in the ability of such brilliant women to keep up the fight.

This week is International Women's Day - mesh campaigners across the world are my International Women's Day heroes - stay safe and keep the faith, we are right and they are wrong -
Solidarity.

Ned Fudley MSP
